CONSTRUCTABLE

IMPLEMENTATION TIMELINE

We move as fast as you do. Implementations have been performed as quickly as 4 days from contract signed date, depending on the number of projects. A typical timeline is shown here.

Contract Signed Date

Data Migration (~1-2 weeks)

- Kickoff call covers migration planning
- Weekly recurring meeting for 6+ weeks
- Constructable extracts all project data from current provider, or data is sent/pulled
- Data imported into Constructable projects

Onboarding & Training (~1–2 weeks)

- Meetings with each Project Team
  - Set up user roles, permissions
  - Provision user accounts
- Personalized Onboarding materials provided for communication and change management
- Invitations sent to external users
  - Owners, Consultants, Subcontractors, etc.
- Go-Live date(s) scheduled
  - Can be staged per Project Team, or all-at-once
- Direct line/cell phone access to Onboarding Team

Financial Integration *(optional)* (~1 month)

- Set up access to Accounting ERP software
- Usually starts concurrently during migration/onboarding
- Runs post-Go Live to ensure nominal data synchronization

Go Live Date

Continuous Training & Support (Ongoing)

- All active projects managed in Constructable
- Weekly recurring check-in meetings
  - Cadence based on customer preference
- Unlimited live support and trainings provided
  - Most requests usually handled within minutes
